Learn More About Our Application Questions

When you click the apply button to one of Techstars accelerators, you'll be prompted to create a profile. When doing so, please ensure you create your profile using an email address you use and check often so we can send you critical application updates.

The Techstars mentorship-driven accelerator application consists of three main parts:

- Basic information about you (3-5 mins)
- Information about your company (20-30 minutes)
- Optional step to pick the top 3 accelerators you are interested in (3-5 minutes)

Each application can be submitted to specific accelerator programs, or you can submit a general

application, and our teams will work to connect you to the right accelerators.

Submitting multiple applications does not increase your chances of acceptance, so take the time upfront to consider which of our accelerators is the best fit for you and your company.

As you prepare your application, make sure to check out tips from our Managing Directors**.**
